SUMMARY

I'm PhD Candidate in computer science and mathematics at [IRIT](#) (Institut de Recherche en Informatique de Toulouse) and [ANITI](#) (Artificial and Natural Intelligence Toulouse Institute). I am interested in Fairness and Explainability of Natural Language Processing algorithms. I am looking for a research position (academic or private sector) or a post-doc in these topics for September 2024.

EDUCATION

PhD on Computer Science at Paul Sabatier University <i>Fairness and Explainability on Natural Language Processing</i> <i>Supervisors: Nicholas Asher and Laurent Risser</i>	2021 - 2024 Toulouse, France
Master's Degree on Economics at Paris Dauphine University <i>Digital economics, management, innovation, regulation theory</i>	2020 - 2021 Paris, France
Master's Degree on Mathematics at École polytechnique <i>Data Sciences, Statistical theory, Natural Language Processing, Optimisation, Causal Inference</i>	2018 - 2020 Paris, France
Bachelor's Degree on Mathematics at Paris-Sud University <i>Fundamental mathematics: Algebra, Topology, Calculus</i> <i>Holomorphic function, Probability</i>	2015 - 2018 Paris, France

WORK EXPERIENCE

Research intern at Criteo AI Lab <i>Study of the causal effect of displays (advertising banners sent by Criteo) on the sales of associated products.</i>	May 2020 - September 2020 Paris, France
Data scientist intern at EDF R&D <i>Analysis and disaggregation of individual electrical consumption time series.</i>	April 2019 - August 2019 Paris, France

TEACHING

Teaching assistant at Paul Sabatier University <i>Mathematics for Undergraduate students on Biology Bachelor</i>	2021 - 2023 Toulouse, France
Teaching assistant at Paul Sabatier University <i>Logic for Undergraduate students on Computer Science Bachelor</i>	2021 - 2022 Toulouse, France
Oral examiner at Parc de Vilgenis High School <i>"Colles" on mathematics for Undergraduate students in "Higher school preparatory classes"</i>	2018 - 2020 Massy, France

PUBLICATIONS

1. **Fanny Jourdan**, Agustin Picard, Thomas Fel, Laurent Risser, Jean-Michel Loubes, Nicholas Asher, "COCKATIEL: COntinuous Concept ranKed ATtribution with Interpretable ELEments for explaining neural net classifiers on NLP tasks" to appear in Proceedings of *the Findings of the Association for Computational Linguistics (ACL 2023)*, Toronto, Canada, 2023, ACL.
2. **Fanny Jourdan**, Laurent Risser, Jean-Michel Loubes, Nicholas Asher, "Are fairness metric scores enough to assess discrimination biases in machine learning?" to appear in Proceedings of *Third Workshop on Trustworthy Natural Language Processing (TrustNLP ACL2023)*, Toronto, Canada, 2023, ACL.
3. **Fanny Jourdan**, Titon Tshiongo Kaninku, Nicholas Asher, Jean-Michel Loubes, Laurent Risser, "How Optimal Transport Can Tackle Gender Biases in Multi-Class Neural Network Classifiers for Job Recommendations" in *Algorithms*, 16.3, p. 174

TALKS AND POSTERS PRESENTATIONS

TrustNLP Workshop ACL - Oral <i>Are fairness metric scores enough to assess discrimination biases in machine learning?</i>	July 14, 2023 Toronto, Canada
TrustNLP Workshop ACL - Poster session (2 posters) - <i>Are fairness metric scores enough to assess discrimination biases in machine learning?</i> - <i>COCKATIEL: COntinuous Concept ranKed ATtribution with Interpretable ELEments for explaining neural net classifiers on NLP tasks</i>	July 14, 2023 Toronto, Canada
ACL - Findings spotlight <i>COCKATIEL: COntinuous Concept ranKed ATtribution with Interpretable ELEments for explaining neural net classifiers on NLP tasks</i>	July 9, 2023 Toronto, Canada
European Workshop on Algorithmic Fairness - 2 Spotlights - <i>Are fairness metric scores enough to assess discrimination biases in machine learning?</i> - <i>How Optimal Transport Can Tackle Gender Biases in Multi-Class Neural Network Classifiers for Job Recommendation</i>	June 7-9, 2023 Zurich, Switzerland
MobiliT.AI - Poster session <i>COCKATIEL: COntinuous Concept ranKed ATtribution with Interpretable ELEments for explaining neural net classifiers on NLP tasks</i>	May 30-31, 2023 Toulouse, France

3IA round table - Speaker <i>Reducing bias and inequalities: can AI have a role?</i>	March 22, 2022 Online
3IA Doctoral workshop - Talk <i>Bias in Natural Language Processing</i>	November 22-23, 2021 Toulouse, France
"Journée du GDR TAL 2021" - Talk <i>Bias in Natural Language Processing</i>	October 5, 2021 Toulouse, France

EXTRACURRICULAR EXPERIENCES

PhD student representative at ANITI Diversity Commission <i>The commission initiates and launches actions to combat prejudice about AI and to fight against gender stereotypes.</i>	2021 - Today Toulouse, France
Cofounder and treasurer at AlumnIA association <i>Creation and management of the budget of the association of alumni of the Data Science master at École polytechnique Paris.</i>	2020 - Today Paris, France
Volunteer at Femmes & Mathématiques association <i>Organization of "Filles & maths : une équation lumineuse" events to help high school girls discover the trades related to mathematics and not undermine their ambitions.</i>	2018 - 2019 Paris, France
